

Timer.OnEnable

Timer.OnTriggerEnter

Timer.ResumeTimer

```
graph LR; A[Timer.OnEnable] --> C[Timer.ResumeTimer]; B[Timer.OnTriggerEnter] --> C;
```

The diagram illustrates a flow where two events, `Timer.OnEnable` and `Timer.OnTriggerEnter`, both lead to the `Timer.ResumeTimer` function. The source boxes are white with black borders, while the destination box is gray with a black border. Blue arrows indicate the direction of the flow from left to right.
