

Environment.OnDisable

Environment.OnEnable

Environment.ShowOverlay

```
graph LR; A[Environment.OnDisable] --> C[Environment.ShowOverlay]; B[Environment.OnEnable] --> C;
```

The diagram illustrates a flow where two events, Environment.OnDisable and Environment.OnEnable, trigger the Environment.ShowOverlay function. The source boxes are white with black borders, while the destination box is gray with a black border. Blue arrows indicate the direction of the flow from left to right.
